

Important announcement

ONLINE SUBMISSION OF RESEARCH ARTICLES FOR PJZ

We are extremely grateful for your continued interest and confidence in Pakistan Journal of Zoology. We at our own end are constantly trying to serve you better and better. Because of large number of research articles that we receive every day, it is gradually getting humanly impossible for us to send you prompt acknowledgements, and correspond with honorable reviewers and request them to expedite the review process. In order to increase efficiency of our system and avoid any sort of delays, we have entered into an agreement with **Smith and Franklin Publishers of UK** for online submission of the article and quick handing of the manuscripts.

We would request you for on line submission of your new research articles on the following web link

This new arrangement will not only quicken the processing of your articles, but will also assign DOI numbers and give wide circulation to your work in the world scientific community.

Editor, PJZ
