

Pakistan J. Zool., vol. 45(6), pp. 1750, 2013.

Corrigendum

RASGELE, P.G. AND KAYMAK, F. 2013. Evaluation of genotoxic and cytotoxic effects of natamycin in mice bone marrow cells. *Pakistan J. Zool.*, **45**(4): 1103-1112.

The authors apologize to the chemical company DSM for using the name “Delvocide” instead of “natamycin” in their publication. The word “Delvocide” in abstract, test chemicals (Materials and Methods) and “Toxic effects of Delvocide on *Mus musculus*” and in Acknowledgement in the above article may be read as “Natamycin”. The authors would like to emphasize that they had no bad intention for such use.
