

**Fig. S2. A:** PCR amplification of *chitinase* gene from SBS-BT5 strains from *Bt* ladder (lane 1), control (lane 2), 4µl DNA (lane 3), 2µl DNA(lane 4), 1µl DNA (lane 5).

**B:** Restriction analysis of T/A cloned *chitinase* gene from SBS-BT5; Lane 1 and 2, double restriction with *EcoRI* and *HindIII*; Lane 3, DNA ladder; Lane 4, single restriction with *EcoRI*.
